- An example of Mariana Bracetti Academy's innovative community partnerships at the elementary level is the school's collaboration with PlayWorks. PlayWorks is an AmeriCorps program that promotes social and emotional learning rooted in the CASEL standards through structured recess, classroom game time, and the development of leadership skills through their Junior Coach Program. The reach of PlayWorks extends beyond school-based support and promotes community and family engagement through service projects and celebrations. A full time, on-site PlayWorks coach is immersed in the culture of the school and has cultivated many positive relationships with students, staff members, and families.
- At the secondary level, Mariana Bracetti Academy has fostered a strong 15-year partnership with Summer Search. Each year, the program accepts multiple Mariana Bracetti Academy sophomore students to engage in a 7-year mentorship and support program which includes one-on-one and group mentoring, summer travel experiences, and post-secondary advising.
